I would think so. I think it's just a formality to adopt the decision and risk profile at this point. I'm guessing the contact group tomorrow will be for dechlorane plus. I can join back in after the other meeting wraps up.

I think that's fine - methoxychlor will be fine by plenary?

Best,
Karissa

Hey! I just received an invite to a meeting for a high profile chemical that my IO would like me to attend from 9-10 am tomorrow. It would be during tomorrow's contact group. I believe everyone is planning to join tomorrow and it wouldn't be an issue for me to drop-off for that meeting, but wanted to check with you. Let me know if you have any concerns.

Thanks,
Monique
